

**Department of Health and Human Services
National Institutes of Health
National Cancer Institute**

The Neuro-Oncology Branch, a trans-institute program of the National Cancer Institute and the National Institute of Neurological Disorders and Stroke of the National Institutes of Health, is recruiting a Staff Scientist to work in the area of cancer genomics and/or experimental therapeutics. The successful candidate should have a M.D. or Ph.D. degree, and at least 3 years of post-doctoral training in molecular and cellular biology. Laboratory projects include the genetic study of primary glial neoplasms and neural and tumor stem cells for the purpose of identifying novel anti-tumor targets, and the development of high throughput screens for small molecule inhibitors of tumor/stem cell-associated signal transduction pathways. Experience in cancer and/or stem cell biology would be desirable.

STAFF SCIENTIST

Please send curriculum vitae, statement of research interests and two letters of reference to:

Karen B. Abraham
Administrator, Neuro-Oncology Branch, National Cancer Institute
MSC 8200, Room 225
9030 Old Georgetown Road
Bethesda, MD 20892-8200
abrahamka@mail.nih.gov

Candidates may be U.S. citizens, resident aliens, or nonresident aliens

DHHS, NIH, the National Cancer Institute and the National Institute of Neurological Disorders and Stroke are Equal Employment Opportunity and Affirmative Action employers that value and foster diversity throughout the entire organization.
